

BLACK LOOP - QUINS TRAIL

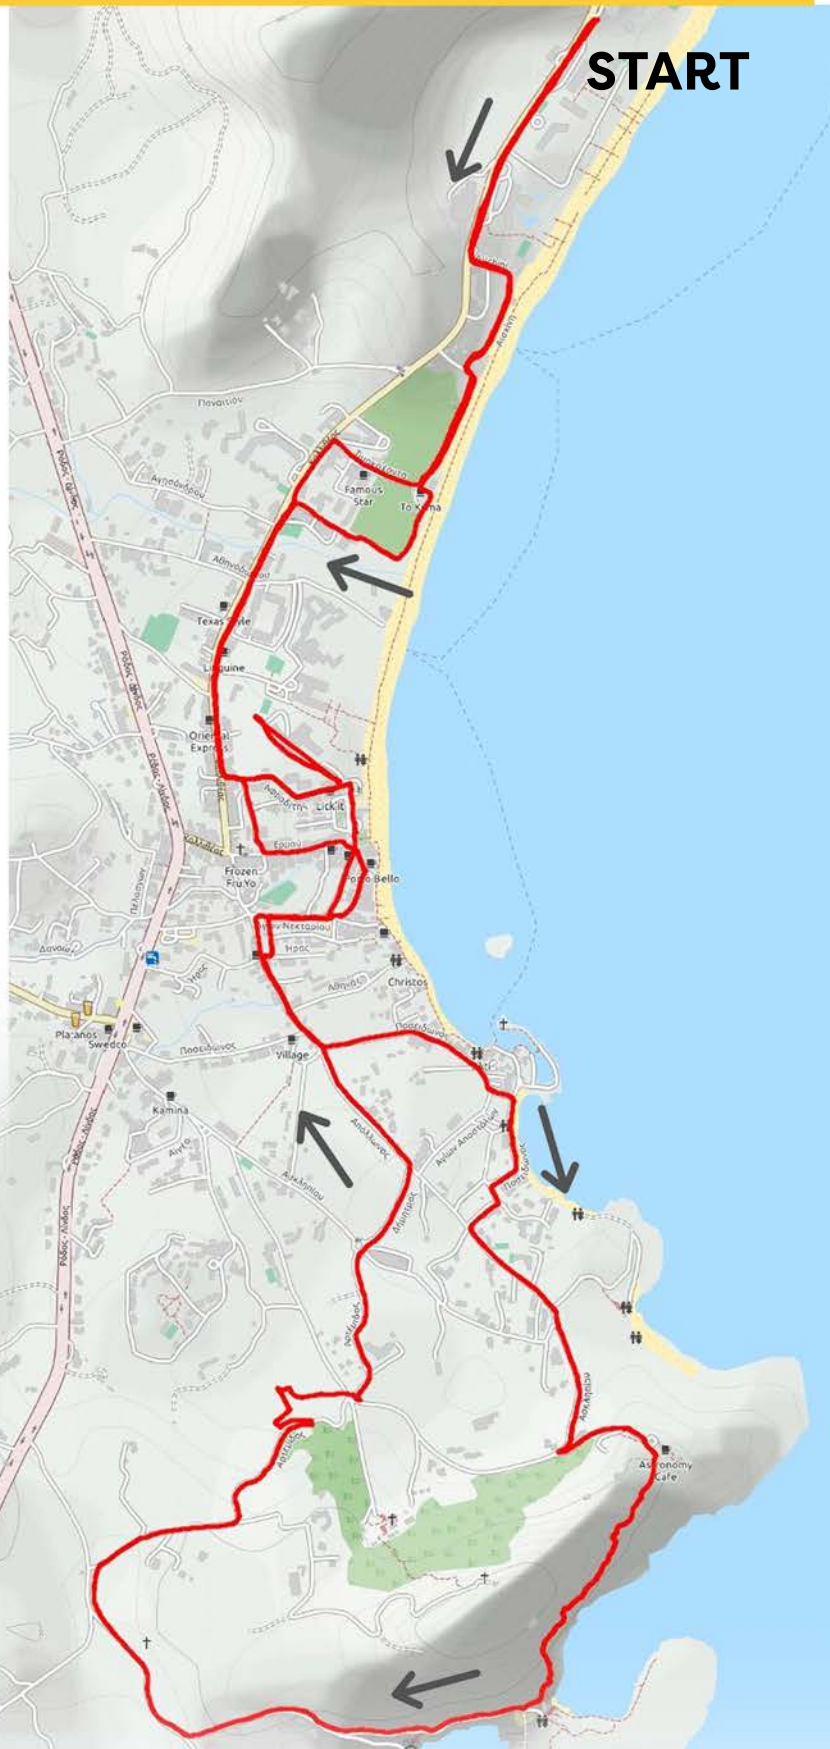

12,5KM

apollo sports

RHODES

A wonderful longer run to the southern end of the bay and up to Quins Track to see the wonderful sights from the Observatory and of Quin's Bay. A longer run with some hilly sections on a combination of asphalt, and trail.

For the green and black loop you go out and run back the same way. So do not be confused if you see arrows pointing both ways. In particular the black loop loops back on itself a few times so be ready for this. We have also marked out the km markers for every loop when possible, so this should make it easier to see where you are going.

DISTANCE: 12,5 km

TOTAL CLIMB: 280 m

HIGHEST POINT: 76 m
